Dear Resident:

The fence on your property was inadvertently constructed within a Leon County drainage easement. Obstructions within a drainage easement increase the possibility of localized flooding by capturing debris and blocking the main flow of stormwater within the easement.

Leon County Public Works has the responsibility of maintaining this drainage easement to ensure water will flow freely to minimize potential stormwater impacts. We are requesting that the fence be removed from the easement within 30 days of receipt of this letter. Please be aware that County staff is allowed to remove any obstructions necessary, but will not relocate or reinstall fence segments removed.

If you have any questions, you may contact my office at 488-8003.

Thank you,

Joseph L. Brown, III, P.E.  
Director of Engineering Services

JLB/MH/djw
